Light Vote Being Cast in Annexation Election

PRESIDENT TAFT WIPES OUT ALL THE PARTY LINES

PATRONAGE TO GO BACK TO INSURGENTS

No "Progressives," No "Regulars," Is Dictum of the Nation's Chief.

Federal Appointments Were Withheld for a Time, But It's All Over Now.

Primaries Have Settled the Factional Strife of Past Few Weeks.

Is Not Meant, However, as a Surrender to the Insurgents.

PRESIDENT TAFT

tion hostile to efforts to fulfill the pledges of the party platform.

This attitude on the part of the President ended, however, with the more recent primary elections and nominating conventions in which the people have declared themselves and the President now looks on "progressives" and "regulars" alike as Republicans and as such entitled to his support and the support of the party and the fall elections. Secretary Norton's letter says must settle the question whether the differences of the last session of Congress shall be perpetuated or forgotten.

The letter of Secretary Norton, in full, follows:

Secretary's Letter

"Beverly September 15 1910

"Your letters of the 9th are at hand and I have delayed replying until after the primary elections. The President directs me to express to you and your friends his deep appreciation of the work which you have done and the powerful assistance which you have extended to the administration from the beginning—an assistance that has contributed much to the legislative and other successes which have been secured.

"The President recognizes that your efforts have been wholly disinterested, that you have fought sturdily and generously for what you believed to be in the interest and the welfare and success of the party.

"While Republican legislation pending in Congress was opposed by certain Republicans the President felt it to be his duty to the party and to the country to withhold federal patronage from certain senators and congressmen who seemed to be in opposition to the administration's efforts to carry out the promises of the party platform.

"That attitude, however, ended with the primary elections and nominating conventions which have now been held and in which the voters have had an opportunity to declare themselves.

People Have Now Spoken

"The people have spoken. As the party faces the fall elections, the question must be settled by Republicans of every shade of opinion, whether the differences of the last session shall be perpetuated or shall be forgotten.

"The President recognizes the danger that in certain cases expressions of feeling were so intense as to make it difficult for the party, but as he stated in his letter to the Republican congressional committee he believes it can be done and should be done. The President is confident that you will yourselves meet your local and State situation in this spirit and that you will write to your friends and ask them to do likewise.

"The President feels that the value of federal patronage has been greatly exaggerated and the refusal to grant it has probably been more useful to the men affected than the appointments would have been.

"In the preliminary skirmishes in certain States like Wisconsin and Iowa and elsewhere he was willing, in the interest of what the leaders believed would be party success to make certain discriminations, but the President has concluded that it is his duty now to treat all Republican congressmen and senators alike without any distinction.

"He will follow the usual rule in Republican congressional districts and States and follow the recommendations made by Republican congressmen and senators of whatever shade of political opinion, only requiring that the men recommended shall be good men, the most competent and the best fitted for the particular office.

CHARLES D. NORTON, Secretary to the President

DISCUSSING LETTER

Discussing the views of Mr. Taft as disclosed by the letter of Secretary Norton, the following are the views of the party leaders who have taken a chance to discuss the letter. As the party leaders view the situation, Iowa is not violently in agreement. The Iowa platform, it is pointed out, subscribed to "such efforts as President

FIRE DESTROYS BIG PLANING MILL

Overland Lumber Company of Alameda Suffers Loss of \$20,000.

Lack of Proper Apparatus Makes It Difficult to Combat Blaze.

Fire supposed to be the result of spontaneous combustion in a damp pile of sawdust destroyed the planing mill of the Overland Lumber Company at the south end of the Webster street bridge shortly after 5 o'clock last night and threatened to spread to the adjoining lumber yards and mills.

It was only by the strenuous efforts of the fire department and the help given by the Southern Pacific tug, that the blaze was confined to the building in a high at, originating just below the Overland Lumber Company's planing mill, which is about 500,000 with 500,000 in stock.

The blaze was discovered soon after 1 o'clock in the eastern end of the planing mill by a night watchman who tried to extinguish it unaided. The lack of proper apparatus and water to fight the blaze handicapped him and he was forced to leave the planing mill to telephone for the Oakland and Alameda fire departments.

MADE BIG HEADWAY

By the time the department arrived the fire had such a headway that it was impossible for the tug to reach the planing mill. The Oakland department was reinforced by the Alameda fire fighters under chief Steinmetz.

After vainly endeavoring to extinguish the blaze in the mill the firemen turned their attention to keeping the fire from spreading across the street to the planing mill of the Hunter Lumber Company. Despite their utmost efforts the fire could not be controlled and at one time it looked as if the whole planing mill of the Overland Lumber Company and some of the adjoining buildings would go up in smoke.

Just as the fire was at its height the fire tug Ajax arrived and began pumping water from the estuary on the burning mill. The water given by the tug and the Alameda department by the hook resulted in a speedy subjugation of the blaze.

About 11 o'clock the fire was under control but it was still smoldering in the ruins of the mill. It was necessary to keep a careful watch to be maintained all night to prevent the fire from breaking out again.

The entire planing mill was destroyed and the machinery in the building totally ruined and many piles of lumber and a switch engine in the yards badly damaged by the fierce blaze.

The cause of the fire is supposed to be spontaneous combustion in a pile of sawdust in the northeast corner of the planing mill. It is presumed that the fire was smoldering in the sawdust from dusk and it was only discovered when the smoldering fire broke out in the frame of the building and set the woodwork ablaze.

The Overland Lumber Company is owned by S. G. Cook and E. A. Cook, the president and manager, who live at 1000 Broadway. They have set out to work clearing away the ruins and to rebuild the plant immediately.

Fitzgerald Must Pay \$50,000 to Get Out

Judge Landis Refuses to Reduce Bail of Man Accused of \$173,000 Theft.

CHICAGO, Sept. 15.—Efforts to obtain a \$50,000 bail for the bail of George W. Fitzgerald, who was arrested here yesterday, failed with having stolen \$173,000 from the subscribers to the United States District Court before Judge Landis. Judge Landis fixed the bail last night at \$50,000. Fitzgerald was arrested on a charge and in consequence he spent the night in a cell.

The prisoner who stoutly denies the charge against him was brought from the county jail into court to listen to the judgment.

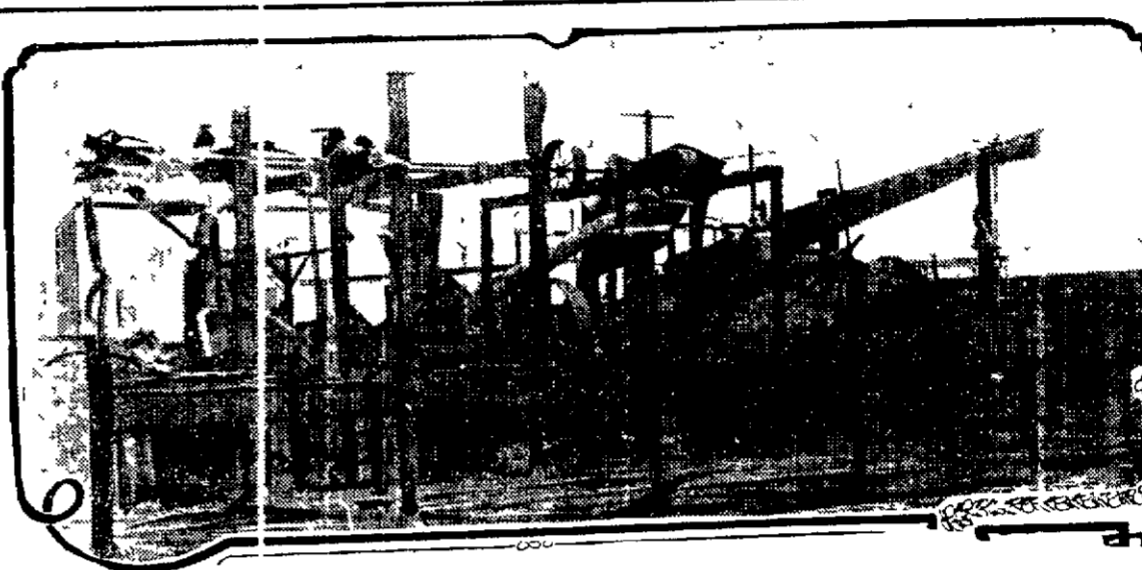

Judge Landis declined to reduce the bail.

Big Engine Blows Up; Engineer Is Killed

Locomotive Was Going 35 Miles an Hour and Fireman Is Fatally Injured.

COMMERCIAL, Kan. Sept. 15.—Running at a rate of 35 miles an hour, a locomotive of the Missouri and Texas railroad blew up near here today. The engine was going westward on the main line when it exploded. The engineer, Fred H. Hill, was killed and the fireman, William H. Smith, was fatally injured. The locomotive was carrying a load of coal.

Spectacular Blaze Keeps Firemen Of Two Cities Busy All Night Long

Ruins of the Overland Lumber Company's planing mill, burned early this morning.

FAWCETT NEGLECTED WORK AND USED HIS POSITION TO CAMPAIGN, SAYS STETSON

All Members of Works Board Condemn Ousted Secretary for Conduct in Office; J. W. Nelson Announces His Policy and Takes Charge

J. W. Nelson took charge of the office of the secretary of the Board of Public Works in the City Hall this morning. Walter B. Fawcett, ousted secretary, was seen leaving the office at an early hour. Nelson will receive his official appointment at the next meeting of the Board of Works, when he will qualify in the sum of \$5,000 as bond.

Nelson, who is recognized as a man of fine ability and integrity, declared this morning that there will be no change in the office. He will keep from now on regular office hours and will keep himself and all his assistants from 8:30 in the morning to 5 in the afternoon. He will inaugurate a new edition of affairs at the City Hall. He received many visitors this morning who offered their congratulations upon his position.

of voters there and were consequently not relieved by the other members of the Board of Works, is the statement made by Senator Stetson.

REASON FOR DISMISSAL

The ousting of Walter B. Fawcett, who has been secretary of the Works Board for the past eight years and was considered as the right hand man of the city administration, is considered by many to have resulted in a measure from political reasons, and this has been confirmed in a limited measure by City Attorney John W. Stetson, whose vote helped to release Fawcett from his position as secretary of the board yesterday.

That Fawcett's activities in favor of Fred Morse in the annexed district brought the city administration into disfavor with a large number

of voters there and were consequently not relieved by the other members of the Board of Works, is the statement made by Senator Stetson.

LONG DISSATISFIED

When I took my place as city attorney today, I found Fawcett in the position of secretary of the board of works and I did not wish to sit up anything at that time, as his work appeared to be satisfactory. It was not until I received notice of my appointment that I began to feel that things were getting pretty bad. I had not been satisfied with Fawcett's work before that time.

But I took an interest in the senatorial fight in the annexed district, as I wanted to see who was to be my associate. There I discovered Fawcett's activities and the fact that he was making enemies right and left for the administration. He was working for Fred Morse, not so much the fact of his working for Morse, as his methods stirred up opposition. This is essentially a good government administration and some of the things he did out there in the annexed territory aroused the animosity of the residents and led to their questioning the good faith of the city administration.

NEGLECTED HIS WORK

And to sport at his time in this campaign neglecting his duties and leaving the work upon the shoulders of his assistants in the office. The fact that the office had been particularly full of visitors, but the volume of work was too great without a strong administration.

AIRSHIP PLUNGES TO EARTH; MAN IS UNHURT

Aeroplane Is Demolished by the Twenty-Five Foot Fall at Long Island Aerodrome

NEW YORK, Sept. 15.—Harry S. Harkness, the aviator of Cleveland, had a narrow escape today when the monoplane in which he was flying at the aerodrome in Garden City, L. I., dived suddenly to the ground from a height of twenty-five feet. Harkness' machine was demolished but he escaped unhurt.

This was Harkness' first flight in America. He has been known abroad for his feats in aviation and came to America to enter the international trials for the international aviation meet next month.

For Physical Examination
Take Harkness' and Harkness' Physical Examination. Harkness is a well-known aviator and has been in the United States for some time.

TONGS DEMAND BLOOD; WAR IS NEAR

San Jose Hatchet Men Declare Vengeance Must Be Had Before Peace.

Despite the announcement that the Hop Sing and the Suey Sing had arranged a cessation of hostilities in their tong war, the fire of battle is still smoldering and at any time another murder may be added to the already long list.

An attempt to raise the flag of truce at a meeting held in San Francisco last night was prevented by the vehement protests of the San Jose branch of the Hop Sing who declared that they had a work of retribution that the ending of the war at this time would leave unfinished.

The proclamation of peace that the Hop Sing had posted on the dead walls of San Francisco Chinatown have been removed and the hatchetmen of both tongs are living low, waiting for the other side to make the first move.

BREAK OUT IN SAN JOSE

That the trouble is expected to break out anew in San Jose where the Hop Sing and the Suey Sing are at war, the latest skirmish took place in Sacramento and the police of the Capital City are watching the high-binders so closely that they dare not carry the war further in that field.

The meeting last night was called at the earnest request of the Six Companies and a number of Chinese

(Continued on Page 5)

BERKELEY VOTE WILL DEFEAT MEASURE

College Town Is Against the Scheme at Least 2 to 1

Oakland Voters Show but Little Interest in the Matter

Measure Will Carry Here and Also in South Berkeley

In Oakland but a light vote is being cast today on the proposition of the annexation of Berkeley to this city. Reports at the city headquarters and to the police are that but little interest is being taken in the matter. So far as can be learned Oakland will vote in favor of the annexation.

In Berkeley there is more interest being shown and those who have been watching the fight must think the proposition will be defeated in that city. A majority vote is all that is necessary in each of the cities. Should either of them vote against the measure that ends the question.

BERKELEY AGAINST IT

Berkeley will vote against annexation with Oakland by a majority of from 2 1/2 to 3 per cent according to estimates made by leading business and professional men of the city who have kept close watch on events and who have visited the polls and talked with the workers about them this morning.

In East Berkeley workers at the polls said at 10 o'clock this morning that it appeared that the vote there would be about 2 to 1 in favor of the project. It is this section where the warmest fight has been waged in favor of consolidation. The anti-annexationists have felt all along that this section would go strongly in favor of consolidation.

In West Berkeley, however, the percentage against annexation will be heavy. It is estimated that in certain precincts the vote will be as high as ten to one against joining Oakland while in others it will run between four and five to one against the proposition.

ALL WORKING HARD

Both sides are working with a vim and the headquarters of the joint consolidation committee and the anti-annexation committee of "Lighting Committee of Two Hundred" have been crowded since early morning with anxious watchers all eagerly awaiting the return.

Despite the clouded skies and drizzling rain that fell the work was larger than was expected showing the interest that has been taken in the issue.

A trip to the polls throughout the city made shortly before noon showed a number of business men of the city working with a vim and all agreed that the issue would be killed by the vote.

At 1 o'clock the following returns

Shriners Taken to Rocky Plateau for Initiations

SALT LAKE CITY, Utah, Sept. 15.—A unique ceremony was held today at Devil's Slide, a rocky formation in Weber river canyon on the line of the Union Pacific railway.

The ceremony was attended by F. A. Hines, imperial potentate of the order and a number of visiting nobles from various States. A special train from this city carried 400 men.

It is the intention to have the ceremony made an annual feature.

Shake-Up Coming in Government Mints

An Expert Detailed to Study Methods Used of Refining and Coming Gold.

WASHINGTON, Sept. 15.—Charles Minchell, a New York expert metallurgist, has been engaged by the treasury department to make a study of the methods used in refining and coming gold in the United States.

Minchell is being sent to the New York assay office to study the methods used in refining and coming gold in the United States.

NIGHT RIDERS IN OUTBREAK; TWO BARN BURN

Bands of Masked Men Set Fire to the Properties of Kentucky Planters

BROOKVILLE, Ky. Sept. 15.—Night riders present this morning in Brocken county, Ky., with the loss of two horses and a number of chickens, and the burning of two barns.

Trunks of money were found in the building and were seen to be taken by the riders.

During the night a number of barns were burned and a number of chickens were killed. The riders were seen to be taking the property of the planters.

The riders were seen to be taking the property of the planters.

ACCUSE NAVY DESERTER AS EMBEZZLER

Brother of Secretary to Boston's Mayor Faces Serious Charge.

SAN DIEGO, Cal. Sept. 14.—When the preliminary hearing of W. C. Valerius, brother of the late Secretary to Mayor Fitzgerald of Boston, was held today, the charge of embezzlement was made against him. Valerius is charged with the embezzlement of \$10,000 from the city of Boston. The court thereupon dismissed the case.

Mrs. Valerius, wife of the accused, is also charged with the embezzlement of \$10,000 from the city of Boston.

Mrs. Valerius is charged with the embezzlement of \$10,000 from the city of Boston. The court thereupon dismissed the case.

ROOSEVELT IS HELD UP BY POLICEMAN

His Party in Auto Exceeded Speed Limit: Chased Four Miles.

RIVERHEAD, L. I. Sept. 14.—Colonel Roosevelt and party arrived here today after an eventful automobile trip from Oyster Bay. Near Cold Springs Harbor the Colonel's automobile ran into a speed trap and the party was held up by a motorcycle policeman after a lively four-mile chase.

TO MEET WOODRUFF

NEW YORK, Sept. 15.—Timothy L. Woodruff, chairman of the Republican State Committee, will meet a Syracuse delegation at the State Fair on Friday and Saturday.

Mr. Woodruff was asked whether he had heard anything in confirmation of a report said to have emanated from friends of Colonel Roosevelt that President Taft looked with favor on the Roosevelt program at the State convention.

UPHOLDS COURSE

You haven't heard that the President has taken such a position have you? was the chairman's reply. He continued: It doesn't make any difference how long it takes to get the Roosevelt program into the State convention.

It doesn't make any difference how long it takes to get the Roosevelt program into the State convention.

of the big celebration on the 24th
all committees are hard at work

False Representations of Obstructionists.

It is strange that the Sacramento Bee should allow itself to be misled by a statement obviously untrue as to elementary facts. But it certainly would not have made this remark otherwise.

"Success to the citizen's committee in Oakland that is striving to defeat the application of the Southern Pacific for a fifty-year franchise on the water front of that city."

"According to the statement issued by the committee, the proposed franchise would give the company an absolute and exclusive monopoly of all the western water front now possessed by the city."

Should the council give the Southern Pacific a lease for an additional strip on the water front the city would still have two large sections of the western water front unoccupied—one on the south side of the S. P. mole and another on the north side. Bonds have been voted to construct a city wharf on one of the sections. Moreover, the Western Pacific and the Key Route have both been granted franchises or leases for wharf and dock purposes on the western water front. After all the projected wharf improvements including those proposed by the Southern Pacific, are constructed the city will still be in possession of a large unimproved section fronting on the bay.

Under no circumstances can the Southern Pacific or any other corporation get an "exclusive monopoly of the western water front." The statement that the franchise now pending will give the Southern Pacific an exclusive monopoly is not only palpably false but an absurd and impudent denial of physical facts in plain view.

The Southern Pacific does not control the Western Pacific and the Key Route, but it did the city still owns unleased and unimproved, a greater mortgage on the bay shore than all three of the railroads named will occupy, after granting the additional strip to the S. P.

But one of the conditions attached to the lease is an agreement on the part of the Southern Pacific to remove Long wharf at its own expense and thus leave a clear entrance to the Key Route basin, as the wide stretch of water between the S. P. and Key Route moles is called. Another clause in the pact provides that the Southern Pacific abandon all claim to ownership of wharfing privileges on any part of the Oakland water front.

The citizens referred to by the Bee are a group of chronic agitators who are at war with the business sentiment of the city. They are not merchants or large property owners, and some of them do not live in Oakland. Some are mere notoriety seekers while others have axes to grind. They are obstructing the Southern Pacific's efforts to provide Oakland with an up-to-date system of suburban railways at every point and in consequence that corporation has postponed construction of the fine passenger depot planned on the Sixteenth street station. This is not in the interest of Oakland. It is holding the town back by preventing a development of rapid transit facilities of which this city and its environs are sorely in need.

This fictitious obstruction is retaining building and other improvements in Berkeley and the Richmond district, as well as Oakland, and his sinister aspects which justify grave suspicions of good faith in anything worse.

A false invective against itself cannot stand, said Abraham Lincoln. That was exemplified when the Stalwarts and Halfbreeds split the Republican party in two and made possible the election of Grover Cleveland. Its history about to repeat itself.

Forty Years' Republicanism in France.

This month witnessed the passing of the fortieth anniversary of the third Republic of France which Gambetta and the radical members of the French Chamber of Deputies established on the wreckage of the third empire as the result of the capitulation of Napoleon III at Sedan. The first republic lasted only twelve years after the fall of the last empire when Napoleon Bonaparte established the first empire which lasted, save during the brief interregnum of his exile in 1815 until the battle of Waterloo in 1815. The second republic started with the Bourbon downfall or Louis Philippe as the result of the revolution of 1848. That republic had, however, a brief life, for its predecessor lasted only four years, when the third empire was restored through the election by plebiscite of President Louis Napoleon as emperor under the title of Napoleon III.

For at least nine years the fate of the third republic hung in the balance. It was regarded in France and abroad more as an experiment than as a stable form of government. Indeed its permanency was not assured until the death of President Carnot in 1904. Although it still retains distinctive social and class reminders of the monarchic and imperial regimes through the toleration and perpetuation of titles which other republics have as a measure of safety and the preservation of political equality deemed pride it to totally abolish it. A French republic is to fix apparently established on a permanent basis which nothing save the mercurial temperament of the French people is ever likely to disturb. Two generations have been born and reared in unity which have had no practical experience with any other form of government than that of the republic, and their only knowledge of former forms of government is that obtained through tradition. Every year strengthens the stability of the republic through the reduction by death of the numbers of those who in early life participated in the monarchic and imperial crises of the nation. And notwithstanding all the defects of its republican institutions as seen from an American viewpoint, France is a greater nation than it ever was before in any period in its history and exerts a greater influence also in the family of nations than it ever did before.

Notwithstanding theasty fight made on him Judge Melvin made a magnificent run. He ran on a 1691 votes behind Judge Sloss who was practically unopposed being on both the regular and Lincoln-Roosevelt league tickets. Judge Wilbur of Los Angeles who was selected by the league (Chester H. Rowell) as the running mate of Judge Sloss, fell 1771 votes behind Judge Melvin. Hiram Johnson, the successful candidate for governor, received only 469 more votes than were cast for Judge Melvin. The cast vote given Judge Melvin in his home county, Alameda, was a tribute from his neighbors that should make him feel proud.

The success of the recent experiments in cotton culture in the Imperial valley throws shadows on the future of California among the cotton States of the Union. The latest move in this direction is the purchase by a Chicago syndicate of 32,000 acres of this desert valley land which is to be converted into a vast cotton plantation. One-half of the acreage to be planted next season. Cotton gins and mills are also to be erected on the tract. The price paid for the land is \$1250,000. A few years ago the same land could have been bought for one dollar an acre, and possibly some of it for ten cents per acre. This shows the enormous increase in value of desert lands.

Superiority of American Railroads.

Franklin K. Lane, interstate commerce commissioner, returns from Europe with a much higher opinion of the efficiency of American railways than he took away with him. He has been attending the international railway conference at Berne, Switzerland, and while there became impressed with the superiority of American railroads and American railroad methods. And he frankly says so.

"The conference established beyond question, I think, the supremacy of the American railroad in efficiency," said Mr. Lane to a reporter in New York.

"One of the questions that is left in my mind is as to how the European railroads manage to pay 4, 5 and 6 per cent in dividends with the small volume of traffic they have, compared with the volume we have. I have seen more freight moving in a single hour at Chicago, Pittsburg and Jersey City than I saw in an entire month in Europe."

Our railroad system is without parallel in the world because we are living as a nation and in Europe they live as communities. That accounts in part, for the wonderful efficiency of the American railroad. I doubt very much if you could throw all the railroad systems of Europe together and move the Iowa and Kansas corn crop within a year.

The United States, in an economic sense, is a railroad-made country. That is not true of any European country. Therefore, our problems are different and bigger.

Mr. Lane could have added that American railroads transport freight at one-half to one-fifth the cost of transportation on European railways. In the matter of comfort and convenience for ordinary passengers, American railways are vastly superior to any in the world and the expense of traveling on them is less than elsewhere. In the matter of casualties alone, American railways at a disadvantage in a comparison with the railroads of Europe. But when the conditions of service and operation are honestly compared, this apparent defect is seen to be more imaginary than real.

In America the railroad is a pioneer and a developer, in Europe it is built to meet an established demand, to supply a requirement of cities already in existence and to convenience trade routes long followed. In America the railroads built cities, develop traffic and establish new trade routes. They build in advance of civilization, bringing settlement and commerce after them. They assist in developing the agricultural and mineral resources of the country, and pay special attention to building up manufacturing industries along their lines.

In Europe the railroads do nothing of this kind. Many of the large railway systems of the United States are educating the people in the matter of good roads and improved methods of farming. They employ agricultural experts to test soils and supply information regarding the character of crops that can be most profitably grown. By demonstration they are showing farmers the value of improved domestic animals.

Only recently a special train has been going over Texas loaded with high graded farm stock, experts and literature relating to the best methods of breeding, grading and feeding hogs and cattle for market. All this is done to develop the agricultural resources of the country, but the volume of traffic may be increased. It is business but it is business of an order akin to statesmanship and philanthropy.

It is a popular idea in this country that the cost of freight and passenger carriage in Europe is low compared with what we have to pay. It is not. The cost of freight carriage is two or three times more in Europe than it is in America. First-class passengers pay more than they do here and get less for their money. Yet labor and material for railway construction are immensely higher in the United States than abroad. But, notwithstanding, our transit facilities are the best and cheapest in the world.

The Fresno Republican figures it out that the result of the Maine election is a triumph for the insurgents. We cordially agree.

Referring to a matter of local interest in Oakland and Berkeley the Sacramento Bee says:

Merchants of Oakland resent the rather uncalled for remark of President Wheeler, of the University of California, that "nobody wants to live in Oakland."

As something like 125,000 people live in Oakland and each one considers himself as consequential as Dr. Wheeler, his disparagement loses some of its sting.

The joke will be on Dr. Wheeler if Oakland ever annexes Berkeley.

If the Bee will examine the census returns it will find that Oakland has over 150,000 inhabitants. However, it is right in saying President Wheeler's remark was uncalled for. It was not only uncalled for, but foolish. Moreover, it was palpably false.

EDITORIAL PARAGRAPHS

THE SIFTED that man sows WON'T GROW when it was NOT MEANT for some one's good, the message that is not understood is in IGNORANCE and I AILS to make the sinner man REPENT.

THE LIFE of the home are MOST FAIR when each to others will FORBEAR when their thoughts they truly live TO PITY and through love FORGIVE.

THEY ARE a BROTHERHOOD of men with a mark that shows the FAMILY, the human-kind show their KINSHIP to the Father and to each other by their KINDNESS to their brother.

THE TRUTH to any man is what he BELIEVES in all sincerity, each man's life has its own CENTER bounded by a CIRCUMFERENCE containing all his influences for good.

THE FIRST balance you ever show is the EQUIPOISE in your severest trials—a TRIAL BALANCE on your character edger.

FATHOMISM when divine is lasting, and combined with FAITH overcomes all obstacles, it's the 'LIVE WIRE' highly charged that carries the messages to men.

POVERTY is passable when it brings out the WORKING TALENTS of man so that it may be possible for him to have PLINY.

THE COMMON SENSE of man will not allow insane superstition to rule him, cease to TRUST in chance AND you will DEVELOP your BELIEF in the DIVINE.

THE EGOTIST lifts himself to the skies but takes no thought HOW he may make others rise to a better life, the OBSTINATE KIND makes the HERO out of SELF—the LITTLE MIND.

The Lord's Prayer.

The following beautiful composition was captured during the war at Charleston S. C. It was printed on heavy satin July 4, 1823. It was picked up by A. P. Green of Auburn Ind. at Corinth Miss. the morning the Confederate forces evacuated it May 30 1864.

Thou to the mercy seat our souls dost gather
To do our duty unto thee Our Father,
To whom all praise all honor should be given

For thou are the great God Who art in heaven
Thou by thy wisdom rulest the world's whole frame
Forever therefore Hallowed be thy name,
Let nevermore delay divide us from
Thy glorious grace, but let Thy kingdom come

Let thy commands opposed be by none,
But thy good pleasure and Thy will be done,
And let our promissures to obey be even
The very same On earth as 'tis in heaven
Then for our sake O Lord we also pray
Thou wouldst be pleased to Give us this

The food of life wherewith our souls are fed
Sufficient raiment and Our daily bread
With every needful thing do thou relieve us
And of thy mercy pity And forgive us
All our misdeeds for him whom thou dost please

To make an offering for Our trespasses,
And forasmuch O Lord as we believe
That thou wilt pardon us As we forgive
Let that love teach wherewith thou dost acquaint us to

Parish all Those who trespass against us
And though sometimes thou findest we have forgot
Thine aid for thee yet help And lead us not
Through soul or body's want to despair

Not let earth's gain drive us into temptation
Let not the soul of any true believer fall in the time of trial But deliver us save them from the malice of the devil
And both in life and death keep Us from evil

Thus pray we Lord for that of thee from whom
This may be had For thine is the kingdom
This world is of thy work Its wondrous story
Is thine belongs The power and the glory,
And all thy wondrous works have ended never

Pat will remain forever and Forever
Thine poor creatures would confess again
And this world say eternally Amen.

Wet Weather Talk

It didn't use to grumble and complain
It just sat up and eyed a rain cloud
When God sent out the weather and sent rain
We rains my choice

Mea grieve to all intents
Although they're apt to grumble some
I trust the trust in Providence
And takes things as they come—
That is the comradery
Of men that lived as long as me
Has watched 'em grow old enough to learn
They're not the boss of the concern

With some of course it's different—
I've seen young men that knowed it all
And didn't like the way things went
On the terrestrial ball

But all the same the rain some way
Rained out as hard on public day
For when they really wanted it
It maybe wouldn't rain a bit!

In this existence dry and wet
Will overtake the best of men—
Some like a swift cloudless shot
The sun "now and then"
But maybe while you're wonderin'
Who

You fool like and your misbel to
And want it out pop the sun,
And you'll be glad you didn't get none

It aggravates the farmers too—
They're too much wet or too much sun
Er work or waiting round to do
Before the plowin's done

And maybe like as no wheat
Just as it's loatin' hard to beat
Will fetch the storm and just about
The time the corn's a flut' out!

These here cusses a foolin' round—
And back and forth—and wind and rain
And yit the corn that's a wallered down
Will show up again

The saint no sense as I kin see,
In morals such as you and me
A faith in Nature's who intentions
And lookin' horns with Providence

I ain't no use to grumble and complain
It just sits up and eyes to rejoice
When God sends out the weather and sends rain
We rains my choice

James Whitcomb Riley

A Summer Day

The pendulum slowly swings and swings
Ticking the time away
Numbering the hours so carefully
To make a perfect day

The booklets merrily laughs and laughs
Running in childish glee
To give us flow to a greater realm
Binging No time to waste

The roses send forth their sweet sweet breath
For a moment a life doth ask
That all must labor while good results
Will spring from every task

The meadow grasses bend low bend low
As courtiers to a king
Meekly bowing to the change
Which sweeping breezes bring

Earth's great garden where fruits ripen
And flourish
To tell a tale of choice
On Nature give freedom to thy thought
Rejoice rejoice rejoice
—Julia Abington Gilbert Abington, Pa.

ONE SUCCESSFUL EXPERIMENT

One phase of Southern development which has early out in the experimental stage is the raising of rice.

The State of Arkansas has published to the world many optimistic announcements some of which remain to be backed up by partial achievement.

But the rice fields of the State named already have proved to be a mighty asset in the war-heriting activity of the commonwealth.

The banyan report of the season comes from Stuttgart, Ark. It is a report announcing that probably the record rice crop that will be raised on a single plantation in the State of Arkansas this year will be the crop harvested on the Banks farm south of Little Rock.

On that plantation which now grows on a range of about 100 and it is estimated that the seed will average about sixty bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

of 6,000 if the seed is all planted and saved for the fall. The same crop in that the average of the crop the State has raised will be 100 bushels to the acre. When it is all planted and saved for the fall, the average will be 100 bushels to the acre. This will mean a total crop yield of about

NEW YORK—A wife who says that her millionaire husband put in the most of his time in the city and that she was his only friend in the city, says she will be her own servant and get along on the poorest of allowance. A million dollars a year, she says, is not enough to think the woman did many "queer" things taking off her husband's money.

NEW YORK—A wife who says that her husband lavishly indulges her in a mansion and then demands that she be her own servant and get along on the barest of allowances, a million thanks the woman did many queer things taking off her wedding ring staying out late nights purchasing expensive dresses and jewelry and then dressing shabbily instead so that he would be brought to ridicule.

—These are a few of the charges against the "sugar" wife of Michael Mrs. Mary Beranidi against Michael

stead of dressing in a fitting manner consistent with his business position she would be found in a shabby and slovenly way and slow that life here. Apparently she is a woman who is not content to be indulged. Without reason she still has her wedding ring from a first husband and she is a million thanks the cause of her husband's ill health and business. The notion that she is in straits is not borne out in the fact that she has a fortune of \$100,000 more than \$1000 worth of jewelry and gifts from her other

TACOMA. — Obtrusive Cupid has robbed the Blue Mountain Bachelors club of Dayton of its president. Like a whirlwind out of a clear sky came the announcement of the wedding which took place at Ellensburg last week. President Ralph Hunt returned yesterday to Dayton with his bride, who was formerly Miss Floy Crandrod. He met her five years ago at Washington State College, and although he has had 2000 offers of marriage as president of the bachelors club he returned to his first love.

WORKS. STEER No. 1—Dr. MAX BARN, a psychologist of Clark University, who believes that all women are fundamentally savage, says concerning work on a suffrage:

To put votes for women under the microscope I would call the movement an outbreak of emotional insanity.

What makes women take to street corners? What makes them demand tribute from soap boxes? What makes them distribute handbills in the gutter? Excitement. Dr. Eddy declares.

Do they really want to "illicit"? No, they just think they do. They ought to dig the tunnels. They ought to run the street cars. They ought to begin right now to practice with a hammer and some nails.

ANXIETY IN FRATERNITY RANKS FOLLOWS EDICT

SECRET SOCIETIES TO BE WATCHED BY BOARD

Suspicion Likely to Lead to Expulsion of Students.

FRATERNITY PINS NOW INDICATE FRIENDLINESS

Principal Keyes Believes It Probable New Members Have Been Enrolled.

Constitution in the ranks of the six fraternities and three societies of the Oakland high school followed the announcement of the Board of Education that more stringent rules regarding the solicitation of new members would be enforced.

The instructions which will soon be officially sent to Principal J. L. Keyes of the High School will embody the plan for anyone suspected of being a fraternity or society member shall be expelled from the school. While the students belonging to the fraternities have already signed the pledge, Keyes believes it is probable that new members have been enrolled.

According to the new ruling of the board, suspicion of the principal that a student is a member of any of the secret societies is sufficient cause for dismissal from the school.

SOME EXPLAINING NECESSARY

As the exhibition of the fraternity and society pins is an indication of continued membership, it is possible that a large number of prominent high school students will be placed on the carpet by the principal, according to the ruling of the board. Keyes himself this morning is somewhere between a possibility and a probability that it will be disclosed that many of the secret societies have been taken in new members and expelled from the school.

At present there are six fraternities and three societies in the school. The thing of one year ago eliminated from the school many of the smaller secret societies, but the old and national ones are said to still be in existence.

BULLET HITS HER IN THE JAW

Operated on Later at Hospital and Will Recover From Wound.

Took Gun Out of Package She Was Carrying in Her Hand.

Believed by the Police to Be Insane: Identity a Mystery.

A tiny hammerless revolver which she had concealed about her person, was used by Miss Juana, a diminutive Japanese woman, in the Central police station early this morning in an attempt to commit suicide. The bullet less than a 2 inch bore passed through the lower jaw and was afterwards removed at the Central hospital. The woman is believed to be insane.

Shortly after midnight Special Officer Datto found the little Japanese woman wandering about seventh and Ninth streets looking for herself and showing evident signs of insanity. He took her into custody and turned her over to George Powers, wagon officer at the Central police station who removed her to the city prison.

SHOOT HERSELF

While Powers had his back turned to the little woman who had been sitting quietly in the back of a car of the police station, he was alarmed to hear a shot report behind him and turned to find Miss Juana with a smoking revolver in her hand and blood streaming down the front of her dress from a wound in her chin. She was rushed to the Central hospital, where Dr. Devine treated her and extracted the bullet. The wound is not serious and the woman has been removed to the detention ward where she will be examined by the insanity commission.

The Japanese woman is 45 years of age and claims to come from San Francisco. No reason has been discovered for her condition. The tiny revolver with which she attempted to take her life is a pearl-handled weapon of freak make and size and could not be traced in the pawnshop of the hand is being kept as a souvenir at the police station.

RICH WOMAN IS LOST; CANNOT NAME HOME

Mrs. Fabian and Seven-Year-Old Girl Held in San Diego on Insanity Charge

SAN DIEGO, Cal., Sept. 15.—Held on a charge of insanity, a richly dressed and apparently wealthy woman who goes by the name of Mrs. Fabian, because of the fact that they are unable to learn where she came from or where her home is.

With her at the time of her arrest in one of the fashionable family hotels in the city was a seven-year-old girl, who was held on the same charge. Mrs. Fabian was arrested yesterday afternoon on an insanity charge, but her answers to questions were so incoherent that nothing tangible could be learned.

She showed a telegram from Sacramento signed "O. Fabian" and exhibited a letter written to her on stationery of a Los Angeles hotel. She will have a hearing in court Saturday.

RACES IN THE AIR AROUSE INTEREST

Balloons Arrive at Indianapolis Speedway for Tomorrow's Event.

SAMMY KELLER WINS FROM JIMMY CARROLL; WHEELMEN GIVE A FIRST-CLASS SHOW

MOSER ONCE MORE FAILS TO STOP RUSH OF THE SOUTHRONS

Oakland Slabster Gets Bumpings in the Seventh Inning and Berry's Men Send Winning Runs Over the Plate

By BERT LOWRY.

LOS ANGELES, Sept. 10.—Henry Berry's hired men went after the Oaks again here yesterday, and for the second time during the week gave them a lacing. Walter Moser, who had been lipped off the mound in the Tuesday game thought he could come back and make a better showing than on the day before, but the fates were against him and he was lipped off again.

From the top of the mound he looked very much as if the Oaks were going to reverse the condition of the previous day, and the way they tore after Bill Fozo was a shame. Getting a tying start in the first three innings, Wolkerton's men ran up runs enough to win almost any odd kind of a game, getting a three run lead on the Angels.

The Oaks went out in rapid order and in the half of the opening round but some healthy swings at a ball gave proof that they were there with the big stick.

OAKS SAP THE BALL GOOD AND HARD

Don Cameron opened the second for the visitors and pitched the first ball pitched to the outfield for a single. Cutshaw followed with a sacrifice sending the big first sacker to second base. Fozo came through with a double and the plate. Smith, behind the bat, was as wild as a hawk in his pegging, and in an attempt to catch Moser stealing, he threw the ball far into left so it was easy sailing to the plate for the light fielder.

In the third the Oaks landed on their feet. The last one, Moser, was passed to first, went to second on a sacrifice by Warren, stole third and scored when Cameron landed the safely in right field.

ANGELS GET BUSY NOW AND SCORE

In their half of the third the Angels began to climb and kept climbing until they reached the top of the ladder. The Oaks piled a stringer right through Fozo's and went to second on a sacrifice by Smith. Fozo went out but Del got to third and he tallied when Dares doubled to left.

In the fourth inning fortune smiled on the locals and again they tallied. Murphy had worked his way to second base when along comes Delmas with a double, sending him over the plate.

The fifth time the Oaks saw the knot and it was Dillan that did the heavy work, assisted by Bernard. The right fielder had reached second on a combination of misplays and Dillan's clean twoagger scored him.

MOSER IS BUMPED OUT OF BOX.

The seventh inning saw the finish once more for the Oaks and slabster Fozo. Two men had come to bat and the water bucket when up came Bernard with a beautiful two bagger to right. Howard drew a base on balls, putting two on the base. Dillan hit to Warren and he cut off filling up the bases. Eratic, Warren now clipped in with a boot when Moser tried to cut Howard off second and Bernard reached the plate. Murphy put the game away for keeps with a liner to center that gave his keep and sent both his team to rest.

Then to add insult to injury, the megaphone man turned his noise thrower on the Oakland bench and announced that Portland had won in Sacramento.

AMERICAN BANTAM WEIGHT DOES WELL, BUT LOSES TO BRITISHER

Fast Contest at Wheelmen's Show Pleases Crowd; Balance of Goes Are Also Filled With Plenty of Class

By EDDIE SMITH.

FOR THE FIRST TIME since Jimmy Carroll became a factor in the bantam weight class of pugilism he has met a real contender. Carroll has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician. In the main event of the Oakland Wheelmen's Club show last night however, Sammy Keller, the English bantam weight, out-boxed and out-generated the California home state to finish. At times Jimmy would make a spurt and sometimes more than hold his own with the fleet-footed little Brit, but in the whole he was bested, and in the last two rounds outscored by almost two to one punches, besides allowing the visitor to do all the leading.

While it can not be said that the contest was a one-sided one or that Keller won as he pleased, still he had a sufficient lead to warrant his having the decision.

As in all such cases there are those who feel that Carroll should have had a draw, but by no manner of counting the points of boxing was he entitled to an even break with the young man from across the big drink. It was the old story of a referee being placed in the position of awarding a stranger a victory over an extremely popular local man.

KELLER IS CLEVER BOXER

When Carroll would try to center Keller as the British bantam weight, he was a clever boxer and a real contender. Carroll has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

COUTURE AN IMPROVED BOXER

Couture has improved in his boxing. He has been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

CARROLL DOES LITTLE LEADING

Carroll did not lead in the fight. He was a clever boxer and a real contender. Carroll has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

FOURTH IS A CARROLL ROUND

The fourth round was a Carroll round. He was a clever boxer and a real contender. Carroll has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

BETTS TO MEET HANSEN

Betts is to meet Hansen in the future. He is a clever boxer and a real contender. Betts has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

SHIFFY ON HIS FEET

Shiffy was on his feet in the fight. He was a clever boxer and a real contender. Shiffy has often been matched with men whom the fans thought would be able to out-slug him in the rough in-fighting, and he has been matched with men who were able to keep up a fast pace was taken as sufficient cause for certain fans to believe his chances good against the spiderly young electrician.

Unarmed First Woman Cop Patrols Los Angeles Beat

LOS ANGELES, Sept. 15.—Miss Alice Stephens Wells, the first woman to don a policeman's star in this city, is making good. The chief of police, who have been detailed to help her break in speak in the highest terms of her work.

Patrolman Wells is mild of manner, brief of stature and slight of form. Dressed in ordinary street attire, wearing a police helmet carrying a club no handcuffs and without a revolver or cartridge belt there is nothing awesome about her appearance until the lapel of her coat is drawn aside disclosing the uniform badge pinned to her breastplate. To a friend last night Mrs. Wells confided some of the perplexities of her position.

"I am not armed and I don't know whether it will ever be necessary for me to carry a gun or not of any kind," she said. "I hope I shall not be compelled to do so."

My duties will be assigned to me by the chief of police and to go where I am told to go and to do what I am told to do without question. My duty is first of all to obey my superior officer.

No, I don't expect to have a male champion always. I expect after awhile to walk alone, to suppose myself a woman and to take my place. I may sometimes be compelled to make arrests.

Highwayman Beats Down Victim Who Resists Him

Held up and brutally beaten by a highwayman because he refused to hand over the contents of his pockets, a man was taken to the hospital last night. The victim, a man named John Smith, was traveling alone on a dark night when he was stopped by a man with a knife. The man demanded his money and Smith refused. The man then beat him and took his money. Smith was taken to the hospital with a broken arm and a concussion of the brain.

BIRTHS, MARRIAGES AND DEATHS

Age 10. Cause of death: Diphtheria.

DEATHS.

BROWELL—In aameda Cal. Sept. 15, 1910, Charles Browell, 20, son of Mr. and Mrs. J. Browell.

WILSON—In aameda Cal. Sept. 14, 1910, Mary Wilson, 20, daughter of Mr. and Mrs. J. Wilson.

YUM—In aameda Cal. Sept. 13, 1910, John Yum, 20, son of Mr. and Mrs. J. Yum.

STOCK PRICES SLIGHTLY MIXED

Leading Active Issues Show Downward Course; Bonds Irregular.

NEW YORK, Sept. 15.—Movements of open market prices of stocks were slightly mixed today. The leading active issues showed a downward course, while bonds were irregular. The market was unable to show the small gains and prices were lower. The railroad and utility stocks were particularly weak. The market was also affected by the news of the Canadian crop and the European crops.

WHEAT SHORT OF RECORD IN CROPS

Harvests Will Be About Normal; European Crops Under Average.

WASHINGTON, Sept. 15.—The U. S. Department of Agriculture has completed its estimate of the world's wheat crop. It is estimated that the world's wheat crop will be about normal, but the European crops are under average. The U. S. crop is estimated to be about 1.5 billion bushels, which is about the same as last year. The European crop is estimated to be about 1.2 billion bushels, which is under average.

GRAIN AND PROVISIONS

By J. C. WILSON.

San Francisco, Sept. 15, 1910. No market in Chicago today on account of holidays. Outside markets, however, were all slightly lower. Wheat was down 1/4 cent, and corn 1/4 cent. The market was also affected by the news of the Canadian crop and the European crops.

Private Wire—Chicago, New York, Western Union Code.

J. C. WILSON

Chicago (wire) 10:10 and 11:10. Wheat 10 1/2, corn 10 1/2. New York (wire) 10:10 and 11:10. Wheat 10 1/2, corn 10 1/2. Western Union (wire) 10:10 and 11:10. Wheat 10 1/2, corn 10 1/2.

PURCHASE OF PATTON'S SEAT LOSING VENTURE

NEW YORK, Sept. 15.—The purchase of the seat of the late General Patton, which was sold at auction today, was a losing venture for the bidder. The seat was sold for \$10,000, but the bidder lost the seat.

MONEY AND EXCHANGE

NEW YORK, Sept. 15.—Money and exchange rates were steady today. The market was affected by the news of the Canadian crop and the European crops.
